👤 About Me

- I have nearly 6 month of experience in software development with a background in Software Tecnology and i am eager to continue leveraging my technical skills and personal strengths in this field.
- I possess a strong spirit of learning, a drive to progress, a diligent work ethic, and a dynamic approach in a working environment. I am a person who is always searching for the best solutions, eager to learn new things, and committed to giving my best effort in every task.

🎓 Education

Ho Chi Minh City University of Foreign Languages – Information (2019 - 2023)
Major: Computer Science, GPA: 3.09

💼 Work Experience

Software development intern   12/2023 - Present
VNPT, Ho Chi Minh
- Learn about React Redux,Redux Saga,NodeJS
- Learned and utilized React, Redux, and Node.js to build a movie application. Developed features to browse, search, and review movies. Implemented state management with Redux and created RESTful APIs with Node.js to handle user authentication and movie data.

Software development intern   05/2022 – 09/2022
HCMC - NhaBe Water Supply SJC, Ho Chi Minh
- Developed a debt collection application using ASP.NET. Gained knowledge of HTTP request methods and integrated various APIs.
- Built features to manage debts, track payments, and send notifications to users. Implemented a secure user authentication system and a responsive user interface.

👨‍💻 Side Project

Movie App | 12/2023 - 03/2024 | Personal project

- Developed a movie database web application to enable users to browse, search, and review movies.
- Front-end: HTML5, CSS, TypeScript, React,SwiperJS, TailwindCSS,MUI.
- Back-end: Express.js, JavaScript.
- Database: MongoDB.
- Authentication: JSON Web Token (JWT).
- Source: https://github.com/watanuki469/themoviedb
- Project link: https://themoviedb-five.vercel.app (test account: test@gmail.com,pass 12345678)

🛠️ Skills

Programming Languages: Typescript, Javascript, C++.
(I haven't used C++ for a while)
Backend Technologies: Node.js, NestJS, MongoDB, MySQL.
Dev Tools: Git
Soft skills: Self-learning, problem solving, teamwork, communication.

👏 Thanks!

Looking forward to hearing from you
